Krish Patel

Ahmedabad, Gujarat • +91-9687577521 • krish.sict21@sot.pdpu.ac.in

Highly motivated team player with strong solo work capabilities. Quick learner, enthusiastic, and dedicated to achieving goals effectively and efficiently.

PROJECTS

E-Commerce website

Here, I used the Django framework and JavaScript to build a fully functional website where users can place orders, track their orders, and view the latest announcements by the company.

Daily News

Created a dynamic news website using ReactJS framework, powered by API integration. Implemented responsive design for seamless user experience. Demonstrated proficiency in frontend development and API utilization.

Student Tracking System

This is one of my first websites in which I used PHP, HTML, and JavaScript. The web application provides information about students to their parents, which is uploaded by professors and administrators of an institute.

Plantify

Here I have combined the wonders of artificial intelligence and Machine Learning with the ease of your smartphone to create a simple yet robust tool. By simply taking a photo of a medicinal plant or leaf and uploading it onto our Web-app, you'll unlock a world of knowledge.

EXPERIANCE

Intern, Everest Instruments Pvt. Ltd.   June 2022 - August 2022

Joined Everest Instruments Pvt. Ltd. as an intern during the summer break of 2022. Contributed to various projects and tasks for a duration of 2 months. Gained valuable experience in Web development and Software development using Java.
